## **CENTERS FOR SPIRITUAL LIVING™ SUPPORTS SUPREME COURT DECISION AFFIRMING MARRIAGE EQUALITY FOR ALL**

**Golden, CO (June 26, 2015)** -- Today, the U.S. Supreme Court handed down a landmark decision when it ruled in support of same-sex marriage, and affirmed marriage equality for all. History has been made. This decision puts us one step closer to realizing the Centers for Spiritual Living's vision of creating a world that works for all.

When we are all treated as equals, we are all free. In a world in which gay and lesbian couples live openly as our neighbors, as parents raising children and as loving and spiritual beings who contribute fully as members of our global community, it is simply untenable to suggest that they can be denied the right of equal participation in an institution of marriage. This decision by U.S. Supreme Court grants gay Americans all rights under the law, and the equal protection that they deserve.

**Centers for Spiritual Living** and **Science of Mind** communities have always embraced people of all walks of life, nationalities, faiths and sexual orientation. We celebrate and applaud this momentous moment in history.

"It's always a banner day when right prevails over wrong; justice over injustice and truth prevails over ignorance," said Rev. Dr. Kenn Gordon, Spiritual Leader for Centers for Spiritual Living. "Today evolution took a step in the right direction. It is a victory for the LGBTQ community. It is a victory for us all."
